
7th European FDSS Users Meeting 9th June 2011

- 10:30** Bus pick-up from Hotel NH Brussels City Centre to Janssen Pharmaceutica NV in Beerse
- 11:30** Registration opens
- 12:00** Buffet lunch
- 13:15** Opening address from the Chairmen (Janssen Pharmaceutica NV and Hamamatsu Photonics)
- 13:30** User Presentations – 1st Session
- Voltage gated ion channel assay development using membrane potential dyes.**
Hélène Sabroux-Jousset, Center Lead Discovery, Cellular Pharmacology Group, Merck Serono SA, Geneva, Switzerland
- Cell-based fluorescent assay for selectivity evaluation between Nav1.1 and Nav1.2 .**
Françoise Chesney, Exploratory Unit, Cellular Biology Biochemistry 1, Sanofi-Aventis Research and Development, Chilly Mazarin, France
- FDSS μ Cell implementation at Galapagos for Medium Throughput Calcium assays.**
Katja Conrath, Marc De Raeymaeker, Thierry Christophe, Group Leader Compound Evaluation, Galapagos NV, Mechelen , Belgium
- 15:00** Coffee Break / Poster Session
- 16:00** User Presentations – 2nd Session
- From cyclic AMP to calcium signaling, multiple coupling or new signaling pathways for G-protein coupled receptors?**
Eric Gutknecht, Drug Discovery Dept.
Actelion Pharmaceuticals, Allschwil Switzerland
- Use of aequorin-based assay for screening support in search of allosteric modulators of muscarinic M1 receptor.**
Katja De Waepenaert, Research Fellow, Assay Development & Target Validation, European Discovery Capabilities, Division of Janssen Pharmaceutica NV, Turnhout, Belgium
- Our experience with 1536 assay format**
Annick Diels, Research Fellow, Assay Development & Target Validation, European Discovery Capabilities, Division of Janssen Pharmaceutica NV, Turnhout, Belgium
- 17:30** Open discussions / other presentation...
- 18:20** Meeting ends
- 18:30** Departure by Bus from Janssen Pharmaceutica NV to Brussels
- 20:00** Social Dinner
Belgium Taste in the sky "Atomium"
